ORGANIZATION

OF THE CITY GOVERNMENT

Tuesday, March 25, 1930.

At ten o'clock in the forenoon of the above date, members-elect of the city council for the municipal year of 1930, and the members from the previous council, met for organization at the city council room agreeably to the provisions of the city charter.

The oath of office was administered to the Mayor-elect, Hon. Charles E. Carroll, by Harold E. Wescott, City Solicitor. Mayor Carroll then assumed the duties of his office. The oath of office was also administered to the following councilmen by Solicitor Wescott.

Ward 1 — George W. Tarlson
Ward 2 — Alphonse J. Morin
Ward 3 — George E. Stevens
Ward 4 — James P. Lydiard
Ward 5 — Henry I. Burbank
Ward 6 — Charles L. Simpson

Prayer was then offered by the Rev. Norman Langmaid after which the Mayor delivered his inaugural address.

INAUGURAL ADDRESS

Members of the City Council:

Ladies and gentlemen, as I look you gentlemen in the face, I am moved with a deep sense of appreciation, to be fortified by the presence of men whom I have personally known for years and I venture the expression that the personnel of the present council is second to none who has preceded this body.

We have been chosen by the citizens of our city as the governmental officials for the ensuing year, by handsome majorities, and I beg leave right here, to publicly thank all who took such a willing part in the election, for the very substantial majority, for the unusual confidence reposed in us, as mayor, and the city council. Born of poor but honest parents, where only ordinary opportunities could be given me to struggle along until today be placed in the chair of the highest official in the gift of people of my own city, is worthy of more than passing notice. Again, I thank you sincerely.

Many vital and perplexing questions confront us, each of which must have proper and thorough consideration, that we may arrive at the very best solution of every problem.

In scripture language: "Wisdom is the principal thing;" and again, "If any man lack wisdom, let him ask of God, who giveth to all men abundantly, and upbraideth not." Let us seek the best to be had, in our deliberations.

A suitable comfort station should be erected at some convenient location in center of city, and I respectfully so recommend.

Laconia is now experiencing the most stringent business depression for many years. The car company has voted liquidation of its assets or property. They are evidently

done, and we shall severely feel the loss. Some of our hosiery mills are idle, and others employing very much smaller number of help. Scott and Williams are rebuilding much of their plant and for the present season many people will feel this interruption temporarily. Courage, however, a five million dollar corporation located in our midst which will finally bring us to success, and prosperity will again be with us.

I wish to call your attention to our sidewalks. Many of our people still walk, and they should have suitable sidewalks on which to travel. Resurfacing could well wait for one season, and our outlay be in new walks entirely for this year.

In these hard times, economy shall be the watchword, and less expenditure, more for the money expended, with an itemized account that the inhabitants of the "City on the Lakes" may know and feel their tax money is to be used at best advantage possible.

I have no use for "Star Chamber" maneuvers; let us be open, outspoken, honest and faithful; and to the best of our ability, give to the people of Laconia, the best there is in us.

I recommend as in the past year, that a clergyman be invited to be present at our regular meetings, to invoke the divine blessing on our efforts and doings, and may Heaven add its benediction that we all may make good.

Let us proceed, Mr. Clerk, with the election of officers.

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY

All bills against the city must be approved by the persons authorizing the charge; unless this is done, no action can be had upon the bill by the committee on accounts and claims, and no order will be given for its payment.

When bills are certified to as above, and left with the City Clerk not later than Thursday at 12 o'clock M., preceding the last Monday of each month, they will be audited by the committee on accounts and claims, and if approved by them and allowed by the Council, will be ready for payment on the following Wednesday, at the office of the City Treasurer.

Meetings of the committee on accounts and claims are held on Friday preceding the last Monday of each month at 7:30 P. M., at the City Clerk's office.

Be it ordained by the City Council of the City of Laconia, as follows:

Section 1. Amend an ordinance relating to the regulation of parking on Main, Pleasant, Canal, Elm and Hanover Streets, by inserting in Section 1 of said Ordinance, "Mill Street," so that said Section 1 of said ordinance shall read as follows:

No vehicle shall stop or stand on Main Street between Walker Square and Veterans' Square, nor on Pleasant Street between Bank Square and Veterans' Square, nor on Elm Street, between Union Avenue and Fore Street, nor on Canal Street, nor on Hanover Street, nor on Mill Street from Beacon Street to Main Street, for more than sixty minutes at a time from nine o'clock in the morning until five o'clock in the afternoon, except Saturdays, which shall be from nine o'clock in the morning until eight o'clock in the evening.

Section 2. This Ordinance shall take effect upon its passage.

Passed and approved July 28, 1930.

CHARLES E. CARROLL,
Mayor.

Department Reports

FIRE DEPARTMENT

To His Honor the Mayor and City Council:

During the past year the firemen responded to forty-seven box alarms. One hundred and thirty-seven still alarms came in over the telephone. The largest fire loss paid was at H. C. Sanborn's, Union Avenue and Spring Street. The approximate loss was five thousand dollars. The next largest loss was George Chiceies' fruit store, corner of Mill and Main Street with a loss of three thousand dollars. The other losses paid were less than a thousand dollars down to as low as three dollars.

The total insurance paid during the year was $18,900.

Chase and Veasey suffered a fire loss of about ten thousand dollars. There was no insurance on their mill at Black Brook.

During the year we sent help to Alton, Plymouth, Holderness, Belmont, Gilford and Tilton.

The New Hampshire Spring Water Co., which was burned on the Weirs Boulevard on December 10, was a total loss. Insurance paid about ten thousand dollars. This fire being outside the fire zone, the loss is not charged against the fire department. It is rated as out of town fire.

Respectfully submitted,

A. W. SPRING,
Chief Fire Department.

REPORT OF LACONIA HOSPITAL

To the Honorable Mayor and Members of the Laconia City Council:

Not a year has passed since its beginning that has not witnessed a substantial growth in the work of the Laconia Hospital. Recently an enlargement was made that was expected to be ample to provide for the growth for many years, but the business has increased, so that at this time the capacity of the hospital has been reached. A waiting list is now maintained and it is feared that some patients are being discharged when their stay should be longer in order that those who are in greater need may be admitted to the care of our hospital.

The trustees and all of those who are in charge of its management realize most fully its growth and the importance of its enlargement and that immediate steps should be taken to provide not only for its present, but for its future needs.

This is our greatest charity and we cannot afford to have it neglected or allowed to fail to care for the many who need the services that a good hospital can render. The active co-operation and hearty support of every one who is able to assist must be had, to the end that its usefulness may continue and its present high standard be unimpaired.

You will be interested to read the annual report of Miss Lillian G. Williams, Superintendent, that follows.

WILLIAM F. KNIGHT, *Secretary.*
For the Board of Trustees.

REPORT OF THE SUPERINTENDENT OF THE LACONIA HOSPITAL

To the President and Board of Trustees:

I submit the following statistical report of the Laconia Hospital for the year ending December 31, 1930.

Number of patients in hospital, Jan. 1, 1930	47
Number of admissions in 1930, male	594
Number of admissions in 1930, female — 1061	1655
Total number treated	1702
Number of days service given	17155
Average number of patients per day	47
Average length of time patients remained in hospital	12 d.
Obstetrical Cases	205
Two sets of twins born during the year—total babies	204
Medical Cases	449
Surgical Cases	1001
Children—medical	217
Children—surgical—278. Total	495
Largest number of patients any one day	66
Smallest number of patients any one day	27
Number of operations performed—major	289
Number of operations performed—minor—718. Total	1007

This Fall an attempt was made at grading of the hospital grounds. Considerable work will be necessary in the Spring to make larger space for the parking of cars, and beautifying unsightly places about the premises.

With the assistance of City Fire Department the underbrush on the hospital grounds have been cleared and brown-tail moths destroyed.

In the personnel of the hospital, there have been but few changes. September 1st, Miss Fannie Puffer, who has been supervisor of the second floor since she graduated in 1928, resigned to accept the superintendency of the Huggins Hospital at Wolfeboro, N. H. This position has been acceptably filled by Miss Jean MacMillan, a graduate of the Memorial Hospital at Concord, N. H.

Nurses Training School:

January 1st, 1930, twenty-one student nurses were enrolled, twelve preliminary students were admitted in two groups on March and October first. Of this number five graduated, May 12th, when the graduation exercises for both classes of 1929 and 1930 were held at the High School Auditorium. Four students were discontinued. The student body January 1st, 1931, consists of twenty-four members. It will be crowding to increase this enrollment until larger quarters can be provided.

That we might comply with the N. H. State curriculum, the probation period has been increased to four months.

Our resident instructress is successfully providing for courses of study and lectures to meet the required hours in given subjects.

We were fortunate in securing Miss Dorothy Simpson, B. S., of Skidmore College (Dietetics — Johns Hopkins Hospital) as Instructor in Dietetics, giving forty hours in Dietotherapy and Nutrition.

We are deeply grateful to our Staff of Physicians and Surgeons for class and lecture work given to our student body, and for the willingness to render service during illness of students and employees.

Hospital Aid:

Laconia Hospital is most fortunate in having this enthusiastic band of women who have a membership of seventy, and from whose earnings last year was spent $347.85 for hospital furnishings. Many of the members of the Hospital Aid are chairmen of the twelve various bands having a membership of two hundred and seventy-five. These bands have provided supplies amounting to $958.00.

The Nursing family are very grateful for the cheerful furnishings in their dining room provided by these ladies.

With the mention of the Hospital Aid, we naturally associate the name of Mrs. Julia Abbott, who served as its president for seventeen years. In her recent death we feel the hospital has lost a loyal friend.

The question is sometimes asked as to our free bed funds and the amount of free services given by the hospital. Our president has provided me with the following data:

The cost per bed per day for ward patients is about $4.50 or $31.50 per week. This represents the actual cost to hospital for service rendered and does not include any charge for value of hospital property or investments.

Patients occupying ward beds pay $18.00 per week, which is $13.50 less than actual cost to hospital. In other words patients in wards pay only 58 cents for $1.00 worth of service received.

The welfare of ward patients seriously ill often necessitates being in private rooms, until crisis is past, no charge being made for more expensive accommodations.

The services of our medical staff and hospital are given many times each year without charge to worthy patients.

Each year presents its abundance of unpaid bills, the collection of which is not forced when such procedure would impose actual hardships.

Our city and some of the towns, by their votes, contribute sums to offset the bad bills of their citizens, but to date the hospital has never received a sufficient amount to meet all these charges.

Of the bequests that are made with the understanding that their income be applied to free bed fund will say: This service is rendered up to the amount of total income from fund. (i. e. $5000, at 5%, would give 98 days ward service.)

From the above, we believe it will be seen that our hospital is endeavoring to do its full share of benevolent work, consistent with paying its own expenses and providing the best possible equipment to render efficient service.

Our greatest desire is that our endowments should be increased to such extent that we might be able to render free service to all worthy patients. This can be accomplished only by bequests and contributions from those able to give. There can be no truer charity nor no more worthy cause.

It is a privilege to express my appreciation to the President, our Staff of Physicians, Hospital Aid, Faculty, and all hospital workers for their helpful cooperation during the past year.

Respectfully submitted,

LILLIAN G. WILLIAMS, R. N.,
Superintendent.

REPORT OF THE CITY SOLICITOR

To the Honorable Mayor and City Council:

I herewith submit my report for the year 1930.

Throughout the past year I have attended our local Municipal Court as prosecuting officer in all criminal cases wherein the City had an interest. My appearance is entered in all cases now pending in our Superior Court, of which there are several. The Messer Street case has been terminated to the advantage of the City and has been dismissed upon the docket with the proper marking.

The Covey vs. Robinson case which was a petition for a mandamus to issue against the Laconia Board of Health, in which I appeared for the Board, has been determined in our favor by the State Supreme Court.

A considerable amount of time has been devoted to the water rate question and at the present time I have employed associate counsel and we hope to make a report of interest in the near future.

We have arrived at an understanding with County authorities in regard to the support of paupers, and through the constant efforts of our Overseer of the Poor, the expense of their support has been minimized.

Advice has been given to the various department heads, ordinances drawn, and all other legal questions given careful consideration.

Respectfully submitted,

HAROLD E. WESCOTT,

City Solicitor.

REPORT OF SCHOOL BOARD

To the Honorable Mayor and City Council:

At a meeting of the Mayor and City Council shortly after I, as Chairman of the Laconia School Board, appeared before them and submitted our budget for this present year, they decided and did after due consideration, cut our appropriation some five thousand dollars. The amount that we requested was carefully gone over by each member of the School Board, and it was thought by them that what we requested was reasonable. The appropriation is in no way excessive. We have itemized it very carefully, and from looking over our budget one may ascertain that it would be difficult to cut any one item. As I told the Mayor and City Council, we will do our best to keep within the amount that was allotted to run the schools. At the present time, or in January, we are running about even, that is, it may be possible to keep within the appropriation provided nothing unexpected happens. We have this year saved considerable by reason of the fact that a number of changes in teachers have occurred. They have probably received more pay elsewhere, and they have been replaced with new teachers on our schedule basis. We have also saved money on insurance; the insurance is now so arranged that the yearly premium is about the same. Other items we have saved on.

We appreciate the intention of the Mayor and City Council to save expense for the citizens of Laconia, and in that we will certainly co-operate in so far as it will not be detrimental to the Schools of Laconia. In my opinion if there is anything that we should increase our expenditures on, it is the education of our children in Laconia.

From personal observations that members of the board have made, from reports received from state authorities, every indication points to a satisfactory standing of our schools, and harmonious conditions prevailing.

At one time while I was on the board the citizens attended

the school board meetings; this apparently now has been done away with as we rarely have anyone present except members of the board and clerk of said board. As we have stated before these meetings are public, and we invite you to attend. We are all working for the best interests of our schools, and if you have suggestions or criticism we hope that you will come to the meetings and tell us what they are.

A reasonable amount of money was expended on the Athletic Field last summer, and by the season of 1932 we should have a baseball field. One of the essentials now is a fence to go around the school lot. I sincerely hope that the Mayor and City Council will give the question of a fence serious consideration when the next appropriation is made.

I refer you to the report of the Superintendent which I hope you will give your careful attention. In his report you will notice the large increase in students from 1917 to the present time.

We thank Mr. Gilman, Mr. Whitman and all other teachers for the co-operation, and for the high standing of our schools.

Laconia School Board by,

WAYNE M. PLUMMER,

Chairman.

The highest percentages of failures occur in the early primary grades and in the junior high school period. The first are caused by the fact that many children are slow in getting a start and have to repeat one or more of the early grades. Several children each year enter grades seven, eight and nine from other systems and quite a few of them have difficulty in becoming adjusted to the work under changed conditions.

Comparison of this table with those of the years 1918, 1919 shows that with the increased enrollment last year there were fewer failures in the primary grades in grades seven, eight and nine than in the early years. There were also many less non-promotions last year in the intermediate grades than in 1918 or in 1919.

Two questions may be asked—(1) "Are the pupils better prepared for promotion from grade to grade?" (2) "Are the standards for promotions lower?" The answer is—The standards for promotion are higher, but teachers are able to do more individual work with their boys and girls as the classes are smaller at the present time.

The following table shows the average annual membership during the years covered by reports of the present superintendent. Membership is divided between the grades and the high school as the new organization whereby the junior high school was established did not become effective until 1923:

	Grades	High School	Total
1917-1918	1070	273	1243
1918-1919	925	227	1152
1919-1920	941	218	1159
1920-1921	921	261	1182
1921-1922	936	285	1221
1922-1923	961	309	1270
1923-1924	947	358	1305
1924-1925	1023	302	1325
1925-1926	1072	320	1392
1926-1927	1116	315	1431
1927-1928	1133	336	1469
1928-1929	1167	346	1513
1929-1930	1162	364	1526

The decrease in membership the second year was due to three causes: 1. Operation of the six-year age requirement for admission to the first grade. 2. Graduation of an unusually large class which had been made up of the eighth and ninth grades when the ninth grade was given up in the elementary schools. 3. Employment of many boys and girls from the upper grades and the high school.

For twelve years there has been a steady increase in the membership of the public schools. This increase has averaged thirty-one pupils yearly. There has been an increase during the whole twelve-year period of 33 per cent. In the elementary schools this increase amounted to 26 per cent and in the high school to 60 per cent.

During 1918-1919 there were 14 tuition pupils in the elementary schools and 24 in the high school. Last year there were 59 in the elementary schools and 42 in the high school. These figures show that the great increases have come not from an influx of non-resident pupils but from among our own children who are remaining in school longer and who are attending school more regularly.

Repairs

Fewer repairs than usual were made during the summer vacation. At the high school the auditorium was re-decorated. New rear and side draperies were provided for the stage.

At Academy Street two class rooms were re-decorated. These were the only repairs of importance that were made during the past year.

The baseball field was covered with several inches of loam. This part of the athletic field will be sown with grass seed in the spring and should be ready for use in another year.

Those who attend the football games realize the need of a fence for the athletic field. This will complete the field very satisfactorily as seats at the games can be provided by the use of temporary bleachers until such a time as a permanent stand can be erected.

It will be very poor economy to neglect repairs at the different buildings for a considerable length of time. Among these repairs are painting of the exterior woodwork at Academy Street, Batchelder Street, and Washington Street, and considerable re-decorating of class rooms at the different buildings.

Teachers

This year began with the same teachers at Batchelder Street, Gilford Avenue, Harvard Street, and The Weirs. At Academy Street Miss Weymouth returned to take the place of Miss Barber who had resigned to be married, and Miss Thurston, a graduate of Plymouth Normal School, replaced Miss Stevens who was married during the summer. At Mechanic Street, Miss Gouin resigned to be married and

her place was taken by Miss Garey, who had taught in the first grade for several years. Miss Evelyn Staples came to the first grade from North Woodstock where she had taught since her graduation from Plymouth. Miss Maiwald resigned to accept a position in her home city and she was succeeded by Miss Demers, a graduate of Plymouth with one year's experience as a teacher. Miss Thelma Clow, another Plymouth graduate who had taught at Lincoln, succeeded Miss Fuller in grades five and six at Washington Street. Miss Fuller is now teaching at Beverly, Mass. After many years of faithful service as a teacher in the public schools, Mrs. Wadley was granted leave of absence because of ill health. Her position is now being filled by Miss Adams, a graduate of Keene Normal School.

In the high school six new teachers began work in the fall. Miss Collins returned to Stoneham. Mr. Simpson went to Concord High School. Miss Butson was married. Miss Langley went to Lyndon Institute, Miss Grover to Waltham High School, and Miss Connelly became a member of the faculty of Boston University. The positions thus vacated were taken by Miss Ryan, Mr. Mahoney, Miss Tetley, Miss Kingsbury, Miss Eleanor Sullivan, and Miss Ford, respectively.

Upon the resignation of Miss Patenaude during the fall term, Miss Horr was elected supervisor of art.

Mr. Olsen, who has been instructor in cabinet making for several years, and who has resigned to re-enter the industries, will be succeeded by Mr. Stanwood C. Gilman, February 2.

School Work

In the High School a few changes were made in the courses last year to allow pupils a wider choice of electives. Owing to the great increase in numbers some of the divisions are too large for satisfactory work. This is especially true in the practical arts courses.

The so-called extra curricular organizations are doing very good work. The glee clubs and school orchestra have presented several very fine programs during the year. The work of the art department has been of a high type. The standard of sportsmanship displayed by the boys and girls of the athletic teams is such that the people have a right to be proud of the young people who represent Laconia High School.

In the scholarship contests held at the two normal schools last May our team in United States History won first place among nineteen teams; our team in Mechanic Arts won second place among five teams; in Spelling our team won second place among twenty-five teams.

The high school orchestra won first place in the state contest in a class considerably higher than the one in which the size of the school would naturally have placed it.

The debating team again won the state championship last year, thus establishing a record in the state as follows:

In 1928 there were eleven debates, of which all were won, ten with unanimous decision and one with majority decision; in 1929 all eight debates were won, seven unanimously and one with majority decision; in 1930 all the debates were won, seven unanimously and one with majority decision. During these three years in twenty-seven debates, all of which were won, there were only three judges who voted for the opponents.

Of course, the work of the elementary schools is more a routine and does not attract the attention that the different activities of the high school do. Yet it is in these early years that the foundation of a child's education is laid and upon this foundation depends his success in life. Parents are urged to give more attention to the early training of their boys and girls and to co-operate with the teachers in the work they are doing so conscientiously. Many misunderstandings are avoided by good "team work" by the teachers and the parents.

Some of the features worthy of mention during the past year have been—sketches for the school calendars, posters on health and other subjects, spelling match for the sixth grades, purchase of a piano for the building by the pupils at Harvard Street, organization of the elementary orchestra, organized play ground equipment at Mechanic Street and Washington Street.

The new Elementary Program recommended by the State Department is being used this year. The principal changes under this course are more emphasis upon reading and less upon arithmetic in the primary grades and entirely new outlines in history in the intermediate grades.

New textbooks have been introduced in history for grades four, five, and six. New basal readers and arithmetics should be introduced next year.

Health

Inspection of school children has a two-fold objective. First, the removal from the classroom of children who are a source of infection to other children and, second, the constant searching for remedial defects, which may be corrected, thus enabling the children to continue in school with their handicaps reduced to the minimum.

School inspection carried on by the nurse unassisted by a physician must of necessity entirely omit any examination of the heart or lungs. The following procedure is followed in Laconia. At the beginning of the school year, children are quickly inspected for symptoms of skin disease and pediculi. Minor conditions are treated daily in school. Children badly infected are sent home to be treated by the family physicians, or in case of pediculi to be cleaned up at home. These cases are observed almost every time the nurse visits a school building.

Next the children are carefully weighed and measured. A healthy child grows constantly. Home visits are made to the homes of the children persistently under weight.

Many parents put their children under the care of their family physician when this fact is brought to their attention.

In September children are checked up as to vaccination in order that an accurate report may be presented to the Board of Health.

Every pupil in school has his vision checked with the Snelling chart. If vision seems impaired, a written notice is sent home.

Teeth and throats are carefully inspected; enlarged tonsils are reported to parents, also decayed second teeth.

Orthopedic defects are followed up by home visits and often by calls on the physician tending the case.

In the school year just closed

2280 pupils were seen by the nurse individually
5772 pupils were inspected in classroom for contagion
4451 pupils were weighed, some were weighed three times, others less frequently
2325 vision tests were given
1589 were tested for accuracy of hearing
401 were taken care of for slight wounds or illness at school; 6 were cared for at home
358 home visits were made
555 individual re-inspections were made for certain reasons
16 children were taken to a physician by the nurse
67 children were taken to a dentist
17 were accompanied to an oculist or optometrist

Through the efforts of the Mothers' Club of the Lakeport Woman's Club milk is furnished free to those children in the Lakeport schools who bring their lunches to school and do not have a suitable drink. In the other schools milk is being furnished by the Elks.

The Mothers' Club is also doing a very fine piece of work at the high school in assuming full responsibility of the cafeteria. This is done strictly as a welfare measure and not as a money making proposition.

Many other organizations including the Daughters of the American Revolution, the Women's Clubs, the Kiwanis Club, the Rotary Club, the Business and Professional Women's Club are to be commended for the fine spirit in which they have aided the work of the schools.

Special commendation is also due our physicians and surgeons, dentists, and opticians, who give so generously of their services in needy cases.

For the fine spirit of co-operation we are all indeed grateful.

Respectfully submitted,

JOHN S. GILMAN.

REPORT OF THE CITY MILK INSPECTOR

The work of milk inspection for the year 1930 has progressed along the same line as in previous years, but the ultimate goal is not yet in sight. By this I mean the Pasteurization of all marketed milk.

In the larger cities the all-Pasteurized milk supply has almost been a reality for some years. The milk supply of the city of Boston is 98.5% Pasteurized at the present time.

Many objections are made when one mentions compulsory Pasteurization of milk, but when one stops to consider that raw milk is an ideal food medium for the growth and transmission of the bacteria which produce diseases, especially in infants and children, these objections lose their importance. It then remains a question of the greatest good to the greatest number and personal preferences and prejudices must be over-ruled for the safety of the majority.

The milk supply for Laconia shows much improvement over the preceding years. While there were a greater number of samples found unsatisfactory than formerly, the average bacteria count of the milk was lower than it has been since the introduction of the Milk Ordinance. The prolonged drouth in the summer had a tendency to lower the butter-fat content of the milk and in a few cases the butter-fat fell below the State standards. These faults were corrected by altering feed conditions.

Less trouble was experienced with outside creameries this year because the market was flooded with local milk and cream all summer.

STANLEY E. HUNT,
Milk Inspector.

REPORT OF THE BOARD OF HEALTH

During the past year we have been very fortunate as regards serious outbreaks of contagious diseases. The worst have been a few scattered cases of scarlet fever, all quite mild, two cases of infantile paralysis from an adjoining town, and several cases of whooping cough. Although the number of cases of influenza and measles was large, the cases were relatively mild.

One thing which should be brought to the attention of all people is that many cases of contagious diseases, especially whooping cough, scarlet fever and measles, are not reported because the child is not very sick and the parents do not call a doctor. These persons are not only needlessly and carelessly exposing other people to dangerous diseases but are deliberately breaking a State law and are liable to punishment and a substantial fine.

Early last spring a milk testing laboratory was established in the basement of City Hall. This has proved to be very satisfactory, as more work can be done here than in the quarters, generously donated but rather crowded, formerly used at the Laconia Hospital. Mr. Stanley Hunt, who served as Laconia milk inspector for the second time this past summer, was very efficient and did excellent work. Practically all of the farmers producing milk for local use were very co-operative and anxious to conform with the milk law. The milk generally was found to be of a high standard as regards bacteria count and cleanliness. Only 9% of 188 samples tested was not up to requirements and these samples were only slightly below standard. A few

samples were just on the borderline of the percentage of cream required by State Law and four were below, but these producers changed their feeding methods or added other breeds of cows to their herds to produce richer milk. Taken as a whole, the milk supply for Laconia is both good and clean, but it is very strongly recommended by this Board and by the Milk Inspector that the milk be inspected during the entire year instead of for only three months during the summer, thus preventing careless and slipshod methods of handling milk during those months when some producers know that no one is watching and checking up on them. It is also strongly recommended that all milk sold in Laconia should first be pasteurized. The public will eventually demand this when they learn and realize that milk properly pasteurized is NOT changed in taste and that only then are people using the milk, especially infants and children, protected against milk-borne diseases.

Several houses, previously unconnected with the sewer, were connected this year, but our sewage disposal problem remains unchanged. The lake into which our sewers empty means more financially to Laconia itself than do any of the other lakes in the group because most of the summer people along its many miles of shorefront must trade here, while those on other lakes can trade in other nearby towns. For this reason and for reasons of health, decency and the public good it is recommended that a screening and chlorinating plant or some similar suitable plant be installed at the earliest opportunity after due investigation and study of the problem. It is earnestly hoped that some action will be taken by the Mayor and Council this year and that a survey will be made.

Our local hospital has already become too small for the demands made upon it and it is crowded during many weeks of the year. This means that before very long more room must be made there. When this is done, a suitable isolation house or building should be provided for the iso-

lation and care of contagious diseases. At the present time such cases must be cared for in the homes in which they occur, thus often endangering the lives of other people because it is often impossible to maintain strict and satisfactory quarantine under such conditions.

The public health work and the tuberculosis work for this district has been excellently done by Miss Leavitt and Miss Garland respectively. Both of these nurses are tireless workers and very efficient, and the good that they have done cannot be measured in dollars and cents.

OVERSEER OF POOR

Your Honor, the Mayor and Members of the City Council:

I beg to submit my report as Overseer of the Poor. During the past year I have investigated all cases and families that have applied for aid from the City. This winter we have saved some money by cutting wood for fuel from the city lot, located back of the stone crusher on Union Avenue, the City had this wood cut on halves so that hauling and sawing cost us three dollars per cord. The City has furnished shoes and clothing for children so that they could attend school. The City pays rent for families, together with groceries, provisions, milk and medicine for children, and as a whole the City poor are well provided for. The City has also found homes for children who have been neglected by their parents. Four children of Peter Goupil were sent to the Orphans' Home at a cost of fifteen dollars per month for each child. There is one family of mother and ten children which have been a permanent expense to the City during the past four years, for food, fuel and house rent, provisions and clothing, also another family of mother with four children. The head of both these families are patients at the State Hospital.

Owing to unemployment which brings about hard times the Poor Department appropriation has been overdrawn.

I want to express my appreciation to His Honor Mayor Carroll and members of his Council, to Earl Flanders, City Clerk, the Tax Collector, Martha Johnson, for the time they have given in assisting me with this work, also the City Solicitor, Harold Wescott, who has given his time freely to help the Overseer decide City and County cases.

Respectfully yours,

ARTHUR W. SPRING.

PARK COMMISSION

To the Mayor and Council of the City of Laconia:

Gentlemen :-

The Park Commission is pleased to submit for your consideration its sixteenth annual report.

During the season of 1930 the children attending Opechee Park enjoyed a most successful season under the direction of Mr. Charles E. Lord and Miss Marjorie Sanborn.

We trust our citizens and taxpayers will be pleased to read their report which we present in full.

Report

Opechee Park Playground

Daily Program

9:00 to 9:15	Flag Raising and Announcements
9:15 to 10:30	*Girls* Volley Ball Practice; Tennis for Beginners on Mon., Wed., and Friday. *Boys* Junior Boys' Baseball Practice; Tennis for Beginners on Tues., Thurs., and Sat.
10:30 to 12:00	Swimming for Beginners; Senior Boys' Baseball.

Noon Hour

1:30 to 2:15	*Girls'* Apparatus play; Crafts, Sewing. *Boys'* Horseshoes, Checkers, Catch.
2:15 to 3:45	Swimming for all.
3:45 to 4:45	Supervised play for the younger children.
4:45 to 5:00	Flag Salute and Closing.

Season Program

Week of July 14	Hike to Mt. Belknap, overnight trip on Friday for Boys. Doll Carriage Parade for Girls.
Week of July 21	Pet Show for all.
Week of July 28	Checker Tournament
Week of Aug. 4	Tennis Championship for all.
Week of Aug. 11	Tennis Championship, finals.

Every Wednesday was Dinner Day with many children bringing their lunches.

The attendance varied with the weather, on hot or warm days, there were easily 150 to 250 present during the afternoon session for swimming. An average attendance would be 75 to 100 for mornings and 100 to 150 for afternoons. (I believe these averages are low if anything.)

The chief sports enjoyed by most were swimming and tennis. A good deal of interest was shown in horseshoes. Baseball did not seem to be as popular as usual.

Baseball and volley ball games were played with the other two parks.

Over 50 boys and girls passed the Red Cross Beginners' Test, and 35 passed the Swimmers' Test. Several practiced for the Life Savers' Tests and two Boy Scouts obtained their life saving merit badges.

Miss Sanborn had an attractive display of hand work on exhibition during the last week of the park.

Since tennis and swimming are so popular it seems to me advisable to resurface the two courts and to add another raft and slide, and repair the old water equipment. I also strongly recommend that the two toilets be moved over near the entrance of the park and modern equipment be put in.

The summer of 1930 was the most successful season that the Leavitt Park Plyground has ever known, both in point of attendance and work accomplished.

We were very fortunate in having again Mr. Charles W.

Peterson as instructor and Miss Thelma Clow as assistant. Under their able guidance a summer full to the brim with interesting activities was spent.

Perhaps the biggest achievement was in the swimming. Over fifty boys and girls earned their first badges and twenty more need only a bit more practice to obtain theirs.

Although there were nineteen rainy sessions in the eight and one half weeks, the attendance totaled 6,612 or an average of over 70 at each session.

There were inter-park activities consisting of baseball games, volley ball games, basketball games, tennis and checkers with Opechee Park as contestant and a swimming meet and track meet with that playground. Overnight trips to points of interest were enjoyed on several occasions.

During the season there were two band concerts for the enjoyment of the public. The usual carnival was as successful as in the past due to the cooperation of parents and interested friends. The Twilight League played several games of baseball and drew large audiences each time.

During the winter a splendid skating rink and a separate hockey rink have been maintained on this park.

Altogether, the residents of Ward Six feel that Leavitt Park is the real play center, both summer and winter, daytime or evenings, of our community.

The South End playground was under the direction of Miss Louise Lawrence, while this playground has only part time supervision the attendance was much larger than in previous years and demonstrates the wisdom of its continuance as a playground for the smaller children at the south end of the city.

Your board appreciates the cooperation of the parents and guardians in trying to have the equipment used properly. This year considerable money will have to be expended to repair our equipment.

Once more your commission calls your attention to the need of a suitable building for the accommodation of the

patrons of the South End playground, the need of some repairs to the grand stand at Opechee Park, and suggest the usual appropriation for playground purposes.

The commission extend their thanks to the Mayor and Council and the citizens of our city for the interest they have taken in the parks and playgrounds.

Respectfully submitted,

ALFRED C. WYATT,
BERNICE M. SEAVERNS,
C. E. ROWE,
W. E. DUNLAP,
ELIZA J. SOULE,
Park Commissioners.

BOARD OF PUBLIC WORKS

Laconia, N. H., February 16, 1931.

To the Honorable Mayor and City Council:

We hereby submit the twenty-first annual report of the Board of Public Works, together with the detailed report and recommendations of the City Engineer and Superintendent of Streets and Sewers.

The routine maintenance work has been attended to so far as possible with the appropriations provided and the work of hard surfacing Messer Street together with the installation of curbing and sidewalk on the westerly side has been completed from the railroad crossing to Union Avenue.

The City Engineer's report hereto appended, covers in detail the work of this department as carried on during the past year, and we invite your careful study of same, together with the recommendations for 1931 contained therein, which have the approval of the Board.

The industrial depression of the past year, while not as acute in this vicinity as in many parts of the country, has been severe, and there are many unemployed. The department has been able to employ extra help in doing various small jobs authorized the past year, assisting in some degree in relieving the situation.

There exists throughout the country at this time, a strong sentiment for a reasonable extension of construction of public works this coming season, a plan which directly and indirectly would provide additional employment and incidentally take advantage of the lower costs of material.

This department has a good organization and equipment for road construction as well as maintenance, and whether

it is good policy to provide building some new streets and sewers this year under the present condition is for you to determine, but whatever your decision as to authorizing new construction, we would urge the appropriations of sufficient funds to meet our regular maintenance charges listed under General Appropriations, including the customary service performed by the department in past years in response to public demand.

The City has a large amount of money invested in improved streets and sidewalks, also in structures both above ground and below, in equipment etc., and it would seem wise to so maintain all as to preserve so far as possible the original investment and to insure to the public the advantage derived from the use of this property in good condition at all times.

We recommend the following General Aprropriations:

Bridge Repairs	$ 800.00
Cleaning Streets	6,000.00
Cleaning Catch-basins	1,600.00
Collecting Ashes and Wastes	7,300.00
Cutting Trees, Bushes, etc.	1,200.00

City Engineering	2,200.00
Sewer Maintenance	3,600.00
State Aid Maintenance	600.00
Gravelling Roads	6,000.00

Trunk Line Maintenance	3,750.00
Sprinkling and Oiling	8,000.00
Total	$89,750.00

Respectfully submitted,

HARRY L. SMITH,
CALEB J. AVERY,
Board of Public Works.

Bridges

The Fair Street bridge was cleaned and given one coat of bridge paint.

Minor repairs were made to various other bridges as required.

The Weirs bridge on the Daniel Webster highway (mention of which was made in my 1930 report) still remains in the same condition. The State Highway Department has made an estimate of the probable cost of construction of a new steel bridge with widened approaches. Their estimate is $31,000 to cover cost of new bridge, concrete retaining walls and of a temporary bridge during erection of new structure.

As the law now stands the State may pay for one half the cost of new bridge and the city must pay the other half.

This bridge, although in good repair, is not heavy enough to care for the trunk line traffic which must use it and it should be replaced with an adequate structure.

All the other bridges are in excellent condition.

Drains

Surface water drains were built on Centenary Avenue at the Weirs, Fairview Street, McGrath Street near Opechee Street, on Messer Street in connection with the improvement of that street, on Bay Street from the Lake to Charles Street, Sheridan Street in connection with the construction of a sanitary sewer.

A drainage system for Franklin, Bell, Washington and School Streets in Ward 6 is urgently needed.

Endicott Park

The Mayor and Council authorized the improvement of Endicott Park, so-called, at the Weirs partly as a needed improvement and partly to relieve, to some extent, unemployment. This improvement consisted of the widening and grading the entrance to the park which was dangerous, blasting and removal of boulders and grading and seeding of the area. Additional improvements can be made when so desired.

Graveling Streets and Roads

About $6,000 was expended on this needed improvement but much more work of this nature should be done as traffic is constantly increasing and an improved surface is needed on many heavily traveled roads especially during the season when the frost is leaving the ground.

Pavements

But a small amount of pavement was provided for by the appropriations granted in 1930. Outside of the neces-

sary patching there was laid 4,589 square yards of bituminous macadam on Messer Street from the northerly railroad crossing to Union Avenue.

Messer Street Improvement

This project, provided for by a bond issue in 1929 and only partially carried out, was completed in 1930. The improvement consisted of the removal of incroaching buildings, construction of retaining walls, railings, drains, curbing, sidewalks and a bituminous macadam pavement. This improvement seems to meet the approval of the public generally as it furnishes a good alternate route from Laconia to Lakeport Square.

Sanitary Sewers

In order to furnish employment to people out of work it was deemed advisable to build many needed sanitary sewers. The sum of $13,080.62 was expended in building 1.1 miles of sewers on the following streets: Sheridan, School, Walker, Morrill, Gilford Avenue, Sanborn, Prospect, Gillette, Vincent Avenue at the Weirs.

The sewer system was maintained in good condition and no serious stoppages were encountered.

Sidewalks

An unusually large amount of hard surfaced sidewalks were built on twenty-two different streets. 8,298 square yards of asphaltic concrete surface was laid on new sidewalks and 3,933 square yards of old sidewalks were repaired and resurfaced.

Oiling Streets

No water sprinkling of streets was done during the year and the whole of the appropriation was applied to oiling streets and country roads. Our old horse drawn oil distributor is not economical for the amount of work required

and it is recommended that our sprinkler and flushing truck be remodeled to allow its use for distribution of oil.

Also it is necessary to provide a larger appropriation for cold patching of oiled roads where breaks in the oiled surface occur. Oiling street surfaces not only keeps down the dust but protects and preserves the roads, under automobile traffic and prevents the wash occuring in hills during heavy rains.

Plumbing

This department issued permits for and tested 111 plumbing jobs for the year ending February 15, 1931.

Engineering

This department made surveys, plans, estimates and attended to lines and grades for all construction work undertaken.

General

All work provided for by appropriations was completed and much additional work was done by authorization of the Council to use unexpended balances remaining in several appropriations for this purpose.

I wish again to call attention to the need of a suitable garage and work shop for the department.

I recommend the improvement of Union Avenue from Casino Square to its junction with Stark Street at Lakeport by the construction of curbing, sidewalks where needed, and the repair and widening of the bituminous macadam pavement of the roadway to take care of the area formerly occupied by the street car tracks.

Respectfully submitted,

CHARLES A. FRENCH,

City Engineer, Supt. of Streets and Sewers.

LIBRARY REPORT

REPORT OF TRUSTEES

To the Honorable Mayor and City Council:

The undersigned, trustees of the Laconia Public Library, herewith transmit to you the annual report of Arthur W. Dinsmoor, Treasurer, showing the financial condition of the Library for the fiscal year ending February 15, 1931, together with a table prepared by Miss Hazel J. Clark, Librarian, showing the circulation and registrations during the year.

The circulation at the Gale Memorial Library was 71,523, and at the Goss Reading Room 11,774, a total circulation of 83,297. In comparison with the preceding year this shows a gain in circulation at the library of 7,180 and at the Reading Room 1,171, or a total increase in circulation of 8,351.

This constitutes a total increase in circulation since 1923 of 43,619.

That our Public Library has reached a high degree of efficiency in its service to the community is shown by the following:

The American Library Association at Chicago, recently released figures showing that twenty-two million books were borrowed from the thirty-five libraries represented. It was stated that the average reader in thirty-five cities of one hundred to two hundred thousand population borrowed four books from his library in 1930.

Bridgeport, Connecticut, was one of the five libraries in the list to receive the dollar per capita support set by the association as the lowest figure at which adequate service may be provided.

Cities providing libraries with the least per capita support

showed correspondingly low circulation figures. Miami, Florida, paid twenty-five cents per capita and showed two and one-tenths books circulated per person; Lowell, Mass., paid thirty-five cents per person and circulated two books per person. It was stated that the minimum circulation of books which a library should record, if it is supported adequately, is five books per capita under association standards.

The total circulation in Laconia for the past year, as stated, being 83,297, constitutes over six books per capita of the population. The appropriation from the City for library purposes was $5,000, and the total funds available for the library from this source, the Gale Fund, and all others, was around $9,500 for the year. This would be less than the dollar per capita, which the American Library Association sets as the lowest figure at which adequate library service may be provided, being approximately seventy-five cents per capita. It is a fact, therefore, that the Laconia Public Library, with a per capita of less than the Library Association states to be necessary for the provision of adequate library service, shows a circulation in excess of that prescribed as a minimum which a library should record to properly serve the public. This would seem to be a very creditable record, of which we may well be proud.

REPORT OF AUDITOR

To the Hon Mayor Chas. E. Carroll and City Council:

Gentlemen:

At the request of Mr. Chas. J. Pitman, treasurer of the Library Park Trust Funds, I have audited his financial records, the receipts and disbursements, for the years 1927, 1928 and 1929 and hereby submit my report of the audit.

Cash Balance	$111.18

This balance was verified by a statement from the bank dated March 29, 1930, after deducting an outstanding check of $15.00.

I—*Cash Receipts.*

The cash received came from one source, Mr. Charles J.

Hayford, one of the trustees of the fund. The details of cash received is given later in my report.

During the fiscal year 1927, Mr. Hayford advanced to Mr. Pitman $500.00, in addition to the regular amount of 1927 interest, from the 1928 interest, to meet the current expenses, which were in excess of the regular amount of interest for that year.

Also during the fiscal year 1928 there was an advancement of $200.00 for the same reason as above.

During the fiscal year 1929 no advancement was necessary, in addition to the regular amount of interest, to meet the current expenses.

II—*Disbursements.*

The disbursements were examined and found to be well vouched for.

The disbursements are detailed in Mr. Pitman's report, for the years under consideration.

The cancelled checks were examined and found to be all accounted for, and were compared with the stubs in the check book and found to be O. K.

CHARLES F. AYERS.
Auditor.

AUDITOR'S REPORT

To the Honorable Charles E. Carroll, Mayor, and the City Council, Laconia, New Hampshire:

Gentlemen:—

Pursuant of my duties as City Auditor, I have audited the financial accounts of the City of Laconia for the fiscal year ended February 15, 1931.

I present herewith the following statements showing the financial condition of the City as at February 15, 1931, the appropriation accounts and the Excess and Deficiency, credits and debits during the year.

Exhibit I—Appropriation Accounts year ending February 15, 1931.

Exhibit II—Excess and Deficiency Account.

Exhibit III—Balance Sheet as at Februarv 15. 1931.

Exhibit IV—Serial Debt as at February 15, 1931.

The following items appearing in the balance sheet are commented upon as follows:

ASSETS

Cash $35,274.51

The cash balance was verified by the various bank statements and compared with the City Clerk's ledger.

Accounts Receivable—Taxes $22,407.77

The Collector's records of unpaid taxes were examined and lists were drawn therefrom and compared with the controlling account in the City Clerk's ledger. The commitment of taxes for 1930 and additional taxes for 1930 and prior years were examined. All abatements of taxes were supported by properly approved vouchers from the Assessors. A percentage of the unpaid taxes may be abated and therefore this amount is not an exact value.

Property Sold City for Taxes $3,250.81

During the year the City purchased unpaid taxes assessed on real property in the year 1929. During the year the tax payers redeemed a large amount of unpaid taxes for prior years, substantially reducing the 1929 unpaid taxes.

It is noted that all taxes are collected for prior years up to 1929 with the exception of $4.00 in the year 1928.

LIABILITIES

Motor Vehicles' Fees—1931 $8,627.32

This was found to be in agreement with the City Treasurer. The total amount collected for the year also agreed with the records of the treasurer.

Leavitt Fund Receipts $1,553.09

The disbursements were fully vouched for.

Miscellaneous Liabilities $788.87

This amount is composed chiefly of various items due individuals for damage claims.

Overlay for 1930 Abatements $645.47

This account represents the balance of an overlay provided as a reserve against tax abatements for 1930. This amount is probably not sufficient to take care of the abatements for year 1930 and provision should be made to increase this balance.

Unexpended Appropriations $46,789.52

Appropriations made for the year under review were verified with the records of the City Council. The treasury warrants and special drafts were properly approved and verified all payments made during the year. The

transfers to balance off appropriation accounts were found properly voted for by the Mayor and City Council.

Excess of Current Assets over Current Liabilities $2,100.85

This shows a decrease from that of February 15, 1930 due chiefly to the over spending of the appropriations for the Support of Poor by $2,907.37, the Police Department by $4,959.49 and abatements for years 1927, 1928 and 1929 of $2,078.92, which was carried as an asset.

However there was no new bond issue during the year under review and all current liabilities were provided for.

Exhibit II of this report shows the credits that accrued and the debits arising from the account for the year.

Serial Debt

The Serial Debt outstanding at February 15, 1931, is detailed in Exhibit IV of this report. There was no net increase. The Serial payments and Bonds were examined covering the debt matured during the year.

Cemetery Funds

The cemetery trust funds were invested as follows:

$24,000.00 par value City of Laconia 4% Serial Notes	$24,000.00
Savings Bank Accounts	14,324.27
2 Shares Laconia Water Co. Capital Stock	100.00
First Liberty Loan Bond	50.00
Total Principal	$38,474.27
Balance of unexpended income in Savings Bank Accounts	4,076.55
	$42,550.82

The Securities and pass books of the various banks properly accounted for the funds. The expenditures from the interest arising from the trust funds were properly vouched for. The income and disbursements of all trust funds were properly recorded on the trust fund records.

Library Trust Funds

The books of the treasurer were examined. The securities and pass books were examined and found to properly account for the funds. The balance of the commercial deposit was verified with that of the depository.

I wish to express my appreciation for the courtesies extended by the various departments during my examination.

CHARLES F. AYERS,
Auditor.

CERTIFICATE

I hereby certify that the accompanying balance sheet and statement of Serial Debt reflect the financial condition of the City of Laconia, as disclosed by its books at the close of the fiscal year ended February 15, 1931. I further certify that I have audited the income and expense accounts of the City for the year under review and have found them correct as set forth in my report submitted herewith.

CHAS. F. AYERS,
Auditor.

SUMMARY OF VITAL STATISTICS

Number of births	293
Number of births not previously recorded	13
Number of marriages	96
Number of deaths	170
Number of deaths occurring at Belknap County farm	9
Number of bodies brought here for burial	78

By Chapter 106, N. H. Laws of 1917, the Clerks of Cities and Towns are required to send a copy of every child's birth certificate to its parents, and if said copy is not received within sixty days from date of the child's birth, the parents should notify the City Clerk, in order that same may be placed on record.

Efforts have been made to make the records of vital statistics correct as possible. Should any error or omission be detected, the City Clerk will appreciate the kindness conferred by being informed of the same, that the records of the city may be made right.

EARL FLANDERS, *City Clerk.*
